AirMaxx

Available in 90 Count Vegetarian Capsules and 8 or 90 Count Chewable Wafers

AirMaxx was designed to support healthy respiratory function and reduce allergic response. The ingredients in this supplement were selected with the goal of maintaining histamine levels within normal ranges. People take AirMaxx to help with itchy skin and eyes, congested and runny nose, splotchy, red skin, and discomfort associated with skin irritation and respiratory dysfunction.

About the Ingredients

Vitamin C is a powerful immune booster and antioxidant. It helps form red blood cells and provides antioxidant protection against free radicals. Furthermore, it supports collagen production to benefit skin, teeth and bone health. Vitamin C also regulates histamine production and metabolism. In studies, low vitamin C was associated with higher histamine production and administration of vitamin C reduced blood histamine levels. Factors such as coffee, tea, smoking, illness, strenuous exercise, physical and mental stress, and certain prescription medications may deplete Vitamin C levels in the body.

TRACCS™ Zinc Arginate Chelate is a trace mineral found in bones, teeth, skin, skeletal muscle, prostate, testes, liver, white blood cells, and the retina. Zinc serves many functions in the body like supporting immunity, gene expression, protein folding, enzyme function, and wound healing. Numerous research studies have shown that zinc enhances immune response during infection, such as increasing CD4 T cells and T lymphocytes. Additionally zinc may reduce the duration and severity of common cold symptoms.

Citrus Bioflavonoids (Capsules Only), lemon bioflavonoids and vitamin C have been included to support the immune system, capillary and connective tissue health. Bioflavonoids increase the effectiveness of Vitamin C by 50%.

ActiVin® Grape Seed Extract (Capsules Only) uses the patented, environmentally friendly ActiPure® natural water extraction process. This process is able to recover more of the potent OPCs from the grape seed proanthocyanidins.

Quercetin is a flavonoid demonstrating many biological effects, including anti-allergy activity. It reduces the effects of histamine in the body. Research has found that both quercetin and cromolyn (a pharmaceutical drug) agents inhibited secretion of histamine, prostaglandins, & leukotrienes. Quercetin was more effective than cromolyn at reducing inflammation. Also, quercetin was better at preventing symptoms, while cromolyn can only be used acutely or it rapidly loses its effect. In another study, quercetin reduced allergic eye symptoms caused by pollen.

Bromelain is an enzyme derived from pineapple that is well known to reduce inflammation, relieve swelling and discomfort, modulate the immune system and more.

Elderberry (Sambucus Nigra), has been used by herbalists for pain, inflammation, coughs, and laryngitis, along with preventing and treating cold and flu symptoms. Both in vitro and animal studies show that elderberry is anti-viral and reduces excessive sinus mucus excretion, making this plant an important ally in promoting sinus and upper respiratory tract health.

N,N-Dimethylglycine HCl, a derivative of glycine, possesses antioxidant activity. It protects against oxidative stress by enhancing performance of the antioxidant defense system and by improving free radical scavenging capacity. DMG may promote oxygen utilization and boost immune response.

Benegut® Perilla Leaf Extract can reduce inflammation and manage histamine levels. Perilla leaves are renowned in Chinese and Japanese herbal medical traditions for addressing respiratory problems and allergies. Modern research confirms that perilla leaf alleviates both allergic and inflammatory responses in the airways. This herbal extract is utilized to reduce discomfort associated with histamine release including skin irritation, redness, sneezing, stuffy nose, overproduction of phlegm, skin and eye irritation, and runny nose. Animal & in vitro studies show that rosmarinic acid in perilla extract reduced allergic inflammatory reaction by decreasing IgE and histamine, which suggests benefits for allergic rhinitis and allergic rhinoconjunctivitis. Another animal study shows benefits of rosmarinic acid derived from perilla in allergic asthma.

SUPPLEMENT FACTS

CAPSULES

Available Bottle Size: 90
Serving Size: 1 Capsule
Servings Per Container: 90
Amount Per Serving
Vitamin C (as Ascorbic Acid) 62.5 mg
Zinc (as TRACCS™ Zinc Arginate Chelate) 2.5 mg
Citrus Bioflavonoid Complex 50% Bioflavonoid 100 mg
ActiVin® Grape Seed Extract (vitis vinifera) 100:1 60 mg
Quercetin (as quercetin dihydrate) 62.5 mg
Bromelain (600 GDU/g) 62.5 mg
Elderberry Powder 25 mg
N,N-Dimethylglycine HCl 25 mg
Benegut® perilla extract (leaf) (providing vicenin-2) 18.75 mg

Other Ingredients: Hypromellose, Microcrystalline Cellulose, Vegetable Stearate, Silica

Suggested Use: As a dietary supplement, take 1 capsule daily, or as suggested by your healthcare professional.

Warning: If you are pregnant or nursing, consult your health care practitioner before taking this product.

CHEWABLES

Available Bottle Size: 8 or 90
Serving Size: 1 Orange Flavored Chewable Tablet
Servings Per Container: 8 or 90
Amount Per Serving
Vitamin C (as Ascorbic Acid) 125 mg
Zinc (as TRACCS™ Zinc Arginate Chelate) 5 mg
Quercetin (as quercetin dihydrate) 125 mg
Bromelain (600 GDU/g) 125 mg
Elderberry Powder 50 mg
N,N-Dimethylglycine HCl 50 mg
Benegut® Perilla Extract (Leaf) (providing vicenin-2) 37.5 mg

Other ingredients: sorbitol, xylitol, microcrystalline cellulose, natural flavor, stearic acid, croscarmellose sodium, vegetable stearate, stevia.

Suggested Use: As a dietary supplement, take 1 orange flavored chewable tablet twice daily, or as directed by your healthcare practitioner.

Warning: If you are pregnant or nursing, consult your health care practitioner before taking this product.
