BerryTone

Available in 120 Count Vegetarian Capsules

BerryTone is a vegetarian dietary supplement that supports weight management.*

BerryTone combines five ingredients (White Mulberry Leaf Extract, Green Coffee Bean Extract, African Mango, Green Tea, and Raspberry Ketones) that work synergistically to help break through weight loss barriers.*

BerryTone supports:

- Thermogenisis*
- Fat burning hormones Leptin and Adiponectin*
- Appetite control*
- Healthy blood sugar levels and reduced cravings*
- Proper fat metabolism*

About the ingredients:

White Mulberry is traditionally used for patients with diabetes. This herb may play a role in preventing development of type 1 diabetes by providing antioxidant protection to pancreatic beta cells. Mulberry plant has also traditionally been used in the treatment of type 2 diabetes to lower blood sugar, maintain adequate insulin levels, and reduce insulin resistance.

Green Tea Extract is an excellent source of potent polyphenols (bioflavonoids with powerful antioxidant properties)*. Research has identified EGCG as the most active polyphenolic compound in Green Tea that supports thermogenesis (fat burning), healthy blood insulin levels and appetite control.* The Green Tea Extract used in this product is standardized to contain 70% EGCG per capsule!

African Mango (Irvingia gabonesis) is a fruit found and grown in West Africa. The extract derived from the seed has been shown to support weight management through appetite suppression and increased metabolic rate.* It works to slow body fat production by supporting favorable changes in Glycerol-3 Phosphate, Leptin and Adiponectin which supports reduction of the conversion of complex carbs into sugars, fat burning and hunger management.*

Green Coffee Bean Extract provides antioxidant activity and supports metabolism in order to burn a higher proportion of lipids to carbohydrates.* Green Coffee Bean Extract contains two important polyphenolic compounds- caffeic and chlorogenic acids. Caffeic acid provides a safe energy boost while being naturally low in caffeine.* Chlorogenic acid helps to slow the release of glucose into the bloodstream after a meal and reduce the absorption of dietary fat.*

Raspberry Ketone is a compound that produces the smell in raspberries. It supports the weight loss process by supporting the body's ability to produce Adiponectin a hormone that increases metabolism and modulates a number of metabolic processes, including glucose regulation and fatty acid catabolism.* Adiponectin is exclusively secreted from adipose tissue and supports weight management via the brain similar to the action of leptin a hormone produced in adipose tissue that increases metabolism and supports appetite control.*

SUPPLEMENT FACTS

Available Bottle Sizes: 120 Serving Size: 2 Capsules Servings Per Container: 60

White Mulberry Leaf Extract 500 mg

(10:1)(Morus Alba)

Green Coffee Bean 300 mg **African Mango 10:1** 300 mg

(Irvingia Gabonensis Extract)

Green Tea Leaf Extract 100 mg

(95% Polyphenols, 45% EGCG, <6%

Caffeine)(Camellia sinensis)

Raspberry Ketone 100 mg

Other Ingredients: Vegetable cellulose (capsules), rice flour, vegetarian leucine.

Suggested use: As a dietary supplement, take 2 capsules twice a day before meals or a workout, or as directed by your healthcare practioner.

Warning: If you are pregnant or nursing, consult your healthcare practitioner before taking this or any nutritional product.
