DHEA

Available in 90 count of either 10 mg or 25 mg Capsules

DHEA (Dehydroepiandrosterone) is an important adrenal hormone that supports healthy aging. DHEA levels decline with age and stress. It is the most abundant steroid in the bloodstream and is present at higher levels in brain tissue. DHEA supports immune system and thyroid function, as well as memory and energy function; it is also a precursor to many steroid sex hormones, including estrogen and testosterone. With age DHEA production declines, usually peaking between the ages of 25-30, and gradually falling to a decline of 90% by age 60.

Studies have shown that supplementing with DHEA may benefit:

- The immune system
- Blood sugar metabolism and weight management
- Brain and bone health
- Heart health
- Estrogen and testosterone levels

HOW DHEA WORKS

Optimal levels of DHEA support balanced cortisol levels. As we age, levels of DHEA decrease naturally. Along with additional stress, low levels of DHEA may lead to higher levels of cortisol, our stress hormone, and accelerated aging. High and prolonged levels of cortisol in the bloodstream (like those associated with chronic stress) have been shown to have negative effects such as:

- Impaired cognitive performance and suppressed thyroid function
- Blood sugar imbalances
- Decreased bone density and a decrease in muscle tissue
- Higher blood pressure and lowered immunity

Factors that contribute to low DHEA levels include:

- Aging
- Caffeine, alcohol, sugar, nicotine, and nutritional imbalance
- A vegetarian diet low in cholesterol and healthy fats

SUPPLEMENT FACTS

DHEA 10 mg

Available Bottle Size: 90
Serving Size: 1 Capsule
Servings Per Container: 90

Amount Per Serving
DHEA (micronized)..... 10 mg

Other Ingredients: Microcrystalline cellulose, vegetable cellulose (capsule), vegetarian leucine.

Suggested Use: As a dietary supplement, Adults (18 years and over) take 1 capsule daily, or as directed by your health care practitioner.

Warning: If you are pregnant, nursing, have hormone related cancer, taking benzodiazepines or related CNS active drugs, or are taking thyroid hormone medication do not take this product without consulting your health care professional first. This product is not intended to be taken by anyone under 18 years of age.

SUPPLEMENT FACTS

DHEA 25 mg

Available Bottle Size: 90
Serving Size: 1 Capsule
Servings Per Container: 90

Amount Per Serving
DHEA (micronized)..... 25 mg

Other Ingredients: Microcrystalline cellulose, vegetable cellulose (capsule), vegetarian leucine.

Suggested Use: As a dietary supplement, Adults (18 years and over) take 1 capsule daily, or as directed by your health care practitioner.

Warning: If you are pregnant, nursing, have hormone related cancer, taking benzodiazepines or related CNS active drugs, or are taking thyroid hormone medication do not take this product without consulting your health care professional first. This product is not intended to be taken by anyone under 18 years of age.

WARNING: NOT FOR USE BY INDIVIDUALS UNDER THE AGE OF 18 YEARS. DO NOT USE IF PREGNANT OR NURSING.
