EnerDMG

Available in 60 count Chewable Tablets & 2 oz Tincture

- **A dietary supplement to support immune system, circulatory, cardiovascular and neurological functions, muscle recovery and endurance.**

- **EnerDMG** is an adaptogen that can be used to maintain good health and benefit performance and productivity.

- As a metabolic enhancer, DMG supports the body in times of stress, throughout the aging process, and during immune system challenges.

- **DMG** is an intricate part of human metabolism and has been used in the health field as a nutritional supplement for over 25 years.

Research and clinical experience has shown that DMG supplementation supports:

- Physical and mental performance
- Oxygen utilization
- Strengthening of both arms of the immune system, including antibody, lymphocyte and cytokine production
- Detoxification, especially in the liver
- Circulation and vascular health
- Glucose and fat metabolism
- Blood pressure, cholesterol, triglycerides and homocysteine levels within normal ranges
- Physical and mental energy levels by reducing lactic acid build-up during periods of stress
- Mental alertness and brain function
- DMG supports overall body health by acting as an indirect methyl donor and providing useful building units for the biosynthesis of vitamins, hormones, neurotransmitters, antibodies and nucleic acids.
