Green-Lipped Mussel

Available in 90 & 180 Count Capsules

Green-lipped Mussel Powder (GlycOmega™) (Perna Canaliculus) is a revolutionary extract combining the well known properties of omega-3 fatty acids, chondroitin sulphate, glucosamine and glycosaminoglycans. The synergies between all these active principles are of huge interest in the nutraceutical and veterinary industry. GlycOmega™ promotes healthy cartilage and provides shock absorbing properties to the joint. Extensive publications and trials are demonstrating the effects of these categories of active principles.

Clinically researched and found to reduce joint pain and increase joint mobility, GlycOmega™ provides a rich source of all major classes of glycosaminoglycans (GAGs), which are principal components of cartilage and the synovial fluid found in joints. GAGs provide flexibility, elasticity and tensile strength to articular cartilage. The severity of arthritis is directly related to the loss of GAGs content with the joint and surrounding cartilage.

Perna canaliculus is an edible species of shellfish from New Zealand. Research over the past 20 years shows that the perna mussel contains a combination of natural components that benefit joint dysfunction, which isolated components do not provide.

It is rich in:

Amino Acids (essential and non-essential) to support the growth and development of all body tissues

Branched-chain amino acids (valine, isoleucine and leucine) used to provide energy directly to muscle tissue

Naturally chelated minerals (for maximum bioavailability) to support the production of collagen, GAGs, proteoglycans, antioxidants and enzyme activity, and to support bone and skeletal health

Omega 3, 6 and 9 fatty acids to support joint health, immune system function and skin health, and to help regulate metabolic functions

Naturally occurring glucosamine to support the production of GAGs and integrity of the synovial fluid

Chondroitin Sulfates and Protein Factors that work synergistically to regulate the immune response and to neutralize the effects of destructive proteolytic enzymes
Chondroitin Sulfates to support comfort, improve joint lubrication, elasticity and vasculature

Hyaluronic Acid to enhance the production of proteoglycans, support synovial fluid, lubricate connective tissue cells, and function as a lubricant between the connective tissues of the skin to retain moisture

Recommended for:

- Supporting full range of motion
- Joint flexibility
- Joint lubrication
- Joint discomfort
- Strains
- Sprains

SUPPLEMENT FACTS

Serving Size: 2 Capsules

Servings Per Container: 45 or 90 Servings

Amount Per Serving

Calories	5
Protein	<1g
Dried Green-Lipped Mussel (GlycOmega™-Plus)(Perna canaliculus)	1000 mg
Alfalfa (Medicago sativa L.)(Aerial)	200 mg

Other ingredients: Vegetarian Capsule (Hyromellose & Water), Organic Nu-FLOW® (Rice Concentrate), Organic Nu-MAG® (Rice Bran Extract, Rice Fiber, Gum Arabic, and Sunflower Oil)

Suggested Use: As a dietary supplement, take 2 capsules, 3 times daily with food for 2 to 4 weeks, then reduce to 1 capsule with meals, 3 times daily, or as directed by your healthcare practitioner.

Warning: If pregnant or nursing, consult your healthcare practitioner before taking this product.
