HA Plus

Available in 60, 120, and 240 count Vegetarian Capsules and Powder

A Comprehensive Dietary Supplement to Support Joint and Connective Tissue Functions and Skin Health

About the Nutrients:

BioCell® Collagen - Type II Matrix consists of Collagen, Hyaluronic acid and chondroitin sulfate, in a patented delivery system utilizing a low molecular weight HA (less than 30,000 daltons) for optimal utilization by the body.

Hyaluronic acid (HA or Sodium Hyaluronate) - is found throughout the body for structural support. It is found most abundantly in cartilage, synovial fluid, skin, and the fluid of the eye. It acts as a cushion and lubricant in the joints and other tissues by helping to thicken synovial fluid, pulling water into the joints, and supporting connective tissue structures. HA is a natural moisturizing agent and is essential for the structure of the extracellular matrix which keeps the skin moist and supple.

Additionally, HA acts as a space-filler in dermal layers between skin cells and produces a long-lasting skin enhancement which makes skin soft, smooth and elastic, especially for the face and lips.

Methylsulfonylmethane - helps support joint comfort and supplies an excellent source of sulfur to help ensure the body's ability to synthesize collagen for connective tissue health, and maintain cell membrane flexibility.

Glucosavida® Glucosamine HCL - is a 100% vegetable source produced through a unique, proprietary process of corn fermentation. Glucosamine is a fast acting nutritional building block for connective tissue. It is necessary for the production of hyaluronic acid (HA) and chondroitin sulfates which support joint comfort and mobility.

Beta-Glucan - have been linked to enhanced immune function and support inflammation management including macrophage, B lymphocyte and suppressor T cell action, and increased non-specific-host resistance to a variety of bacterial, viral, fungal and parasitic infections. Beta-glucans have also been linked to reducing blood pressure and inducing satiety that can lead to weight loss.

Galactoarabian (Arabinogalactans) - are a class of long chained, densely branched polysaccharides (MW 10,000-120,000), which have been found to have strong immune-stimulating and anti-inflammatory properties. AG is rich in available Quercetin, which inhibits the release of histamines and leukotrienes into the bloodstream. Arabinogalactan is also an adjunct (assists in the metabolism of the other ingredients).

HA (HyaMax™) - is a natural lubricating agent in the joints and is found most abundantly in cartilage, synovial fluid and skin. HA provides natural cushioning structures needed by the joint.

Hyamax™ (vegetarian) is the standardized natural Hyaluronic acid. It has the unique structure of mucopolysaccharide with extremely large molecules composed of repeat disaccharide units of Glucuronic acid and N-acetyl glucosamine, which can bind 1000 times its own weight of water for lubricating the movable parts of the human body, especially joints and muscles, moisturizing the skin, and carrying the nutrition to heal the wound.

SUPPLEMENT FACTS

CAPSULES

Serving Size: 2 Capsule

Servings Per Container: 60

Amount Per Serving

Biocell® Collagen (Chicken Sternal Cartilage Extract)	500 mg
yielding Hyaluronic Acid	50 mg
Glucosamine Sulfate	500 mg
Methylsulfonylmethane (MSM)	250 mg

Other Ingredients: vegetable cellulose (capsule), microcrystalline cellulose, silicon dioxide, vegetable stearate.

Suggested Use: As a dietary supplement, adults take 2 capsules, 1-4 times daily, or as directed by your healthcare practitioner.

Warning: If pregnant or nursing, consult your healthcare practitioner before taking this product.

POWDER

Serving Size: 1 Scoop (4.4g)

Servings Per Container: 60

Amount Per Serving

Calories	10
Total Carbohydrates	3 g
Total Sugars	2 g
Includes 2g Added Sugars	
Raw Cane Sugar	2 g
Glucosavida® (Vegetarian Glucosamine HCL)	500 mg
Methylsulfonyl Methane (MSM)	250 mg
Beta Glucan (From Yeast)	200 mg
Galactoarabian (Arabinogalactans)	150 mg
HyaMax® (Sodium Hyaluronate) (Hyaluronic Acid)	30 mg

Other Ingredients: Natural Flavoring, Citric Acid, Silicon Dioxide, Stevia, Grape Skin Extract (For Color), Red Beet Powder (For Color)

Suggested Use: As a dietary supplement, mix one (4 g) scoop in 6-8 oz of water, 1-3 times daily, or as directed by your healthcare practitioner.

Warning: If pregnant or nursing, consult your healthcare practitioner before taking this product.
