Tone & Lean CLA

Available in 180 Count Softgels

- **A dietary supplement to support weight management and healthy cortisol function.**

Tone and Lean CLA is designed to be effective in increasing lean muscle mass and decreasing fat.

Functions

Tone & Lean CLA (Conjugated Linoleic Acid) helps the body metabolize existing fat deposits. This fat then returns to the blood stream where it is used as energy by muscle cells and the liver. Tone & Lean CLA is a great way to reduce fat and increase lean muscle mass safely and effectively.

Recommended for:

- Maintaining blood glucose and cholesterol levels within normal ranges
- Weight Management
- Energy and improved muscle mass for Weight Lifters/ Body Builders

- **Tone & Lean CLA** is completely natural and does not contain any stimulants or artificial ingredients.

CLA reduces body fat and tones muscles by decreasing the ability of the body to store fat. Existing fat cells shrink and new fat cells are prevented from forming. In addition, Tone & Lean CLA boosts metabolism and improves the breakdown of fat in muscle cells for energy. The result is a better appearance by decreasing fat and increasing lean muscle.

Tone & Lean CLA:

- Reduces ability of fat storage cells to take dietary fats from the bloodstream.
- Increases breakdown of fat in muscle cells for energy.
- Increases metabolic rate to burn fat for energy more quickly.
- Supports decreased fat accumulation in the abdominal area.

Studies have shown CLA:

- Supports blood glucose levels within normal ranges.
- Supports cholesterol and triglyceride levels within normal ranges.
- Has no adverse side effects.

SUPPLEMENT FACTS

Available Bottle Size: 180

Serving Size: 1 Softgel

Servings Per Container: 180

Calories	10
Total Fat	1 g
Polyunsaturated Fat	1 g
Safflower Oil	1,000 mg
